

BAUTA is a metallic water-based decorative finish, suitable for lime-based plasters

BAUTA is available in **Gold, Silver, Copper** and **Bronze**.

It may be used in different layers or combined with OMBRA, to create striking effects.

USE

Consumption: **60 ÷ 90 g/m²** depending on the finish.

Ready to use. Mix well before application.

We suggest to apply BAUTA with a soft sponge, with circular movements or brief strokes, depending on the type of finish; eliminating, if necessary, any dripping or product in excess, using a dry cloth (TNT, microfiber, cotton).

Apply the BAUTA with a sponge, taking care not to have too much product on the sponge, in order to avoid drippings.

ENVIRONMENTAL CONDITIONS OF APPLICATION

Environmental temperature should be between +10°C and +30°C.

Relative humidity should not exceed 85%.

STORAGE

The product maintains its properties for a period of 24 months, if properly stored and protected from excessive heat or cold. Storage temperature should be between +5°C and +30°C.

Protect from frost.

SAFETY GUIDELINES

Avoid contact with skin and eyes. Should contact occur, wash thoroughly with fresh water.

Keep away from the reach of children.

For further details see the Safety Data Sheet.

DISPOSAL

The product must be disposed of in accordance with current laws and regulations.

Empty containers must be sent to recycling plants.

TECHNICAL DATA

Packaging	1.25 liters
Specific weight	BAUTA Gold 1,21 kg/l BAUTA Silver 1,11 kg/l BAUTA Bronze 1,14 kg/l BAUTA Copper 1,17 kg/l
Consumption	60 ÷ 90 g/m ²
Aspect	Pearlescent thick liquid
Dry to handle	2 hours at +20°C room temperature
VOC	Max. 1 g/l
Dir. 2004/42/CE	Cat. A/l, limit value 2010: 200 g/l
