

# COCCIOPESTO - additive

COCCIOPESTO is a special additive: a mixture of micronized mineral pigments. It is suitable for the coloring of lime-based products and of our CLASSICO in particular.

## USE

Reduce the viscosity of the plaster by stirring with a paddle mixer. Gradually pour the additive COCCIOPESTO, while mixing, until it has blended completely.

COCCIOPESTO may be added to a pre-colored base, but it is not advisable to add the colorant and COCCIOPESTO simultaneously.

The quantity of FdR in lime-based products depends on personal taste, but here is a general guideline:

Lime-based product	COCCIOPESTO additive
24 kg	450 g
20 kg	375 g
8 kg	150 g

## ENVIRONMENTAL CONDITIONS OF APPLICATION

During application the temperature should be included between +10 °C and +30 °C, while the relative humidity should be lower than 85%.

## STORAGE

The product is not sensitive to temperature variations. However, it is advisable to keep it in a dry place and protect from extreme temperatures.

When the lime-based product, is mixed with COCCIOPESTO, we recommend usage within a few days.

## SAFETY GUIDELINES

Avoid contact with skin and eyes. If contact occurs, rinse thoroughly with water.

Keep out of the reach of children.

For further information consult the Safety Data Sheet.

## DISPOSAL

The product must be disposed in accordance with current regulations. Empty containers should be sent to recycling plants.
