

LUCI - additive

Special mineral additive, of the phyllosilicates family, having crystal effect, LUCI can be used for the decoration of internal and external surfaces as an additive to CALCITE or VESUVIO, to obtain high value decorative finishings.

USE

Reduce the viscosity of the plaster by stirring it with a paddle mixer. Gradually pour the additive LUCI mixing until it has blended completely.

LUCI may be added to a pre-colored base, but it is not advisable to add the colorant and LUCI simultaneously.

The quantity of Luci in lime-based products depends on personal taste, but here is a general guideline:

Lime-based product	Luci additive
24 kg	165 g
20 kg	137 g
8 kg	55 g

ENVIRONMENTAL CONDITIONS OF APPLICATION

During application the temperature should be included between +10 °C and +30 °C, while the relative humidity should not exceed 85%.

STORAGE

The product does not deteriorate.

Keep the product in a dry place and protect from extreme temperatures.

SAFETY GUIDELINES

Avoid contact with skin and eyes. If contact occurs, rinse thoroughly with water.

Keep out of the reach of children.

For further information consult the Safety Data Sheet.

DISPOSAL

The product must be disposed in accordance with current regulations. Empty containers should be sent to recycling plants.

DATI TECNICI

Packaging	165 g
Specific weight	2.9 - 3.2 g/cm ³
Aspect	Metallized Flakes
Colour	Crystal effect o
