

SABBIA DI FIUME - additive

SABBIA DI FIUME is a special additive composed of a selection of river sand, suitable to give a "salt and pepper" effect to lime-based products.

SABBIA DI FIUME can be used for the decoration of indoor surfaces.

USE

Diminish the viscosity of the plaster by stirring it with a paddle mixer. Gradually pour the additive SABBIA DI FIUME until it has blended completely.

The quantity of additive in the product may vary depending on the personal aesthetic taste.

Suggested dosage of SABBIA DI FIUME additive in the lime-based products are anyway the following:

Lime-based product	SABBIA DI FIUME additive
24 kg	800 g
20 kg	660 g
8 kg	260 g

ENVIRONMENTAL CONDITIONS OF APPLICATION

During application the temperature should be included between +10 °C and +30 °C, while the relative humidity should be lower than 85%.

STORAGE

The additive SABBIA DI FIUME is not sensitive to temperature variations. However, it is advisable to keep it in a dry place.

SAFETY GUIDELINES

Avoid contact with skin and eyes. If contact occurs, rinse thoroughly with water.

Keep out of the reach of children.

For further information consult the Safety Data Sheet.

DISPOSAL

The product must be disposed in accordance with current regulations. Empty containers should be sent to recycling plants.

TECHNICAL DATA

Packaging	800 g
Specific weight	2-3 Kg/dm ³
Aspect	Granular sand
Color	Anthracite grey
Granulometry	0,3 ÷ 0,6 mm
